Dear Dr. Thiele:

We have received and thank you for your letter of May 11, 2004, regarding the above-referenced matter.

On May 13, 2004, we prepared and filed with the U.S. Patent and Trademark Office, a response to the outstanding Office Action. Two copies of the Response, as filed, are enclosed.

We relied on your extensive comments which were very helpful in preparing the Response to the Examiner. We also cited the patent statute and the rules of practice to point out that the office action failed to properly find that the subject matter was independent and distinct. The *Lee* case was cited in connection with the argument for keeping the fibrous material claims together. We did not, however, want to admit anything about the broader aspect of the invention as being indefinite (page 2, of your letter, lines 7-8) in view of possible file wrapper estoppel.
